EMPLOYMENT

PROJECT ESTIMATOR / PROJECT MANAGER

Western States Reclamation, Inc. - Frederick, Colorado 2008-Present

Mr. Schneider provides estimates of large- and small-scale environmental reclamation projects to varying industries in the western United States. Estimates for services provided to a range of customers, including: oil and gas, land development, waste facilities (landfills), mining, and government agencies. Mr. Schneider specializes in executing irrigation and landscaping projects in a timely manner, while still maintaining good budget control.

GRADUATE TEACHING ASSISTANT

Kansas State University - Manhattan, Kansas 2005-2007

Assisted professors with teaching and evaluating technology labs and planting design courses. Assisted Dr. Tim Keane with surveying and data collection on stream reference reaches in eastern Kansas.

PROJECT FOREMAN

Teufel Landscape - Seattle, Washington 2003-2005

Managed and installed small design-build projects in Seattle and surrounding areas. Projects consisted of high-end residential and small commercial projects.

FIELD TECHNICIAN

*Northern Colorado Water Conservancy District
Berthoud, Colorado 1999-2002*

Responsibilities included establishing, managing, and maintaining research projects and equipment across Northern Colorado.
