## EMPLOYMENT

### PROJECT ESTIMATOR

*Western States Reclamation, Inc. - Frederick, Colorado 2016-Present*

Mr. Trbovich collects and analyzes data in order to estimate the time, money, materials, and labor needed to provide a service to our many clients. Responsible for bringing in new work for WSRI, Mr. Trbovich accurately calculates the cost of each project in order to maintain budgets.

### SURVEYOR / WETLAND SCIENTIST

*Michael Baker International - Beaver, Pennsylvania 2013-2016*

Conducted field surveys for oil, gas, and construction industries, as well as stream and wetland mitigation remedies. Utilized GPS and locating equipment to conduct gas utility surveys for transmission, distribution, and service pipelines. Responsible for stream classification and construction oversight of stream mitigation jobs.

### SUBCONTRACTOR

*Self-employed - Beaver, Pennsylvania 2013-2016*

Experience conducting a Brownsfield reclamation on an old sandblasting facility. Provided photography services to clients in the real estate market, as well as aerial photogrammetry services. Designed and conducted a prototype of an interactive nature preserve.

### SALES ASSOCIATE / PR MANAGER

*Mountain People's Co-Op - Morgantown, West Virginia 2011-2012*

Helped create numerous business relationships with local restaurants through a community outreach program. Experience keeping inventory, scheduling appointments, and managing PR campaigns.

### INTERN

*American Environmental Services.- Morgantown, West Virginia 2012*

Experience consolidating hazardous and non-hazardous waste material from toxicity to manageable fuel sources. Experience updating the material inventory through the EPA-mandated ICOS system. Devised a contract to handle WVU's leftover paints and aerosols.
